Appendix A: Skills List
INTRODUCTION

This handbook is designed for Candidates seeking Nurse Aide I listing on the North Carolina Nurse Aide Registry. It describes the process of applying for and taking the National Nurse Aide Assessment Program (NNAAP®) Examination.

The North Carolina Department of Health and Human Services (DHHS) has contracted with Credentia, a nationally recognized leading provider of assessment services to regulatory agencies and national associations. Credentia will develop, score, and report the results of the NNAAP® Examination for the North Carolina Nurse Aide Registry. Credentia also manages scheduling and administers the examination to qualified individuals.

NATIONAL NURSE AIDE ASSESSMENT PROGRAM (NNAAP®)

The Nursing Home Reform Act, adopted by Congress as part of the Omnibus Budget Reconciliation Act of 1987 (OBRA ’87), was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

The National Nurse Aide Assessment Program (NNAAP®) is an examination program designed to determine minimal competency to become listed as a nurse aide in North Carolina (NC) on the NC Nurse Aide Registry. The NNAAP was developed by the National Council of State Boards of Nursing, Inc., (NCSBN) to meet the nurse aide evaluation requirement of federal and state laws and regulations. Credentia is the authorized administrator of the NNAAP in your state.

The NNAAP Examination is an evaluation of nurse aide-related knowledge, skills, and abilities. The NNAAP Examination is made up of both a written (or oral) examination and a Skills Evaluation. The purpose of the NNAAP Examination is to test that you understand and can safely perform the job of a Nurse Aide I.
EXAM OVERVIEW

The two parts of the examination process, the written (or oral) examination and the skills evaluation, will be administered separately. Your written exam will be delivered at a Third-Party test site via computer and your skills exam will be delivered at a facility test site by a Nurse Aide Evaluator. You must pass both parts in order to become listed on the North Carolina Nurse Aide I Registry.

The written examination consists of seventy (70) multiple-choice questions written in English. Sample examination questions are provided in this handbook.

An oral examination available in English or in Spanish may be taken in place of the written examination. The oral examination consists of sixty (60) multiple-choice questions and ten (10) multiple-choice reading comprehension questions. **If you want to take the oral examination, you must request it when you submit your application.**

At the skills evaluation you will be asked to perform five (5) randomly selected nurse aide skills. You will be given thirty (30) minutes to complete the five (5) skills. You will be rated on these skills by a Nurse Aide Evaluator. You must successfully demonstrate all five (5) skills to pass the skills evaluation. A complete listing of the skills is shown on pages 26 to 40.

See *The written (or oral) exam* and *the skills evaluation* for more details about the NNAAP Examination.
All Candidates applying to take the NNAAP Examination in North Carolina **MUST** complete an Application for Registration by Competency Examination on-line at [www.credenia.com](http://www.credenia.com). WRITTEN EXAM

The test site administrator will take you to your designated workstation and load your exam. The Written Examination has seventy (70) multiple-choice questions. You will have two (2) hours to complete the Written Examination. You will be told when fifteen (15) minutes are left to finish. Fill in only one (1) box on the answer sheet for each question. See sample questions (page 14 of this handbook) for examples of the kinds of questions found on the written examination.

ENGLISH OR SPANISH ORAL EXAM

An oral examination may be taken in place of the written examination. You must request an oral examination when filling out your application. The oral examination consists of two (2) parts, and you must pass both parts in order to pass the oral examination.

Earphones are provided at the test center and you will use these to hear the questions read aloud.

The first part of the oral examination has sixty (60) multiple choice questions. Each of the sixty (60) multiple-choice questions are read twice. As each question is read, you are asked to choose the correct answer and mark it on the screen.

The second part of the oral examination has ten (10) multiple-choice questions that test whether you know common words used in long-term care facilities. Each word is read three (3) times. You are asked to match the word you hear on the recording to the written word. As you find the match, you mark your answer on the screen.

In the Spanish oral examination, the 10 multiple-choice questions are read in Spanish and you are asked to match the word you hear on the recording to the English written word on the screen.
The revised content outline is based on the findings from the *2014 Job Analysis and Knowledge, Skill, and Ability Study of Nurse Aides* published by the National Council of State Boards of Nursing (NCSBN) in 2015. The examination content outline will become effective January 2016.

The NNAAP written examination is comprised of 70 multiple-choice items; 10 of these items are pretest (non-scored) items on which statistical information will be collected. The NNAAP oral examination is comprised of 60 multiple-choice items and 10 reading comprehension (word recognition) items. The candidate is allowed to choose between a written and an oral examination.

Answers

If your score is less than 17, you may have difficulty reading the Written Examination and should consider taking the Oral Examination in place of the Written Examination.
THE SKILLS EVALUATION

WHAT TO EXPECT

Setting
The skills evaluation is set up to resemble an actual caregiving situation. The skills evaluation area will look similar to your work setting. It will have all the equipment necessary to perform the assigned skills. The skills evaluation will be administered by a Nurse Aide Evaluator. Before your skills evaluation begins, the evaluator will show you where equipment is located and answer questions about operating the equipment. Please arrive 30 minutes early. Test times are approximate.

Who Will Act as a Client?
The part of the “client” will be played by a candidate who volunteers to act as a weakened elderly person. While you perform the skills, speak to the candidate volunteer as you would speak to an actual client in a nurse aide work setting. You are encouraged to speak to the candidate volunteer not only because it is part of quality care, but also because it will help you to relax as you perform the skills. Please note, you may not receive help from anyone during the skills evaluation, and the candidate and the client must speak to one another in English so that the evaluator can understand and correctly score the evaluation. If either candidate gives help or receives help during the test, or the client and candidate are communicating in a language other than English, the test will be stopped.

Candidate Volunteer Requirements
You will need to act as a candidate volunteer for another candidate’s skills evaluation and play the role of a nursing home patient (client). The evaluator will give you verbal instructions that will describe how you should act in performing the role of the client.

Candidate Dress Requirements
You must wear flat, slip-on, non-skid shoes, a loose-fitting top with short sleeves that can be rolled up to the shoulder or tank top, and loose-fitting pants that can be rolled up. You will be required to put a gown on over your clothing. In no case may Candidates remove clothing down to undergarments.

Prior to beginning the exam, you should inform the evaluator of any food or latex allergy or sensitivity to skin soaps or lotion. Any limitations to range of motion must also be communicated to the evaluator prior to the start of the skills examination.
For infection control purposes, you should not come to the test site with open areas/sores on the skin. Candidates with any open areas or sores on their skin should reschedule their skills test to a later date after their skin fully heals.

**THE TASKS**

The NNAAP Skills List contains all of the skills that you may be asked to demonstrate during the skills evaluation. Each skill represents a task that you will be asked to perform in your job and has been broken down into a series of steps.

*See pages 26-40 for the complete skills listing.*

A step that is highlighted in **bold type** is called a *Critical Element Step*. Critical Element Steps are important steps that must be performed correctly in order for you to pass the skill. If you leave out a Critical Element Step or do not perform a Critical Element Step properly, you will not pass the skill. However, if you perform only the Critical Element Step correctly in a skill, you do not automatically pass that skill. You must also correctly demonstrate enough steps to meet the passing standard (or cut score) for each skill.

Before your skills evaluation begins, the Nurse Aide Evaluator will give you an instruction card that will list the five (5) skills selected for you to perform. Hand-washing will always be one of the skills to be performed. The remaining four (4) skills are randomly chosen from the complete set of skills listings on pages 27 to 41 of this handbook. You are strongly encouraged to perform the skills in the order they are listed on the instruction card.

If you make a mistake, say so, and you will be instructed to tell the evaluator which step(s) is to be corrected and then to perform the step(s). You will not have to redo the entire skill, just the steps you wish to correct. There are, however, some exceptions to this rule. If you fail to put on gloves or take them off when it is required to do so and the evaluator reminds you to do so, for infection control purposes, then you will not receive credit for attempting to correct this step. If you wish to correct an order-dependent step (a step stating that an action should be performed before or after another step) and you fail to say when the corrected step should be performed, you will not receive credit for the correction.
Once you begin a new skill, you may not go back to correct a previous skill. The Nurse Aide Evaluator will not answer questions during the skills evaluation and will not tell you whether you performed a skill correctly. You may not receive help from anyone during the skills evaluation. If you do have any questions, please ask them before the skills evaluation begins.

One (1) of the four (4) randomly selected skills will include a measurement skill (see the section below, *Recording A Measurement*, for more information regarding measurement skills).

You will be asked to decontaminate your hands (with hand sanitizer) before proceeding from skills performed on a live client to skills that are not. This is for infection control purposes and will not affect the result of your evaluation.

**When you have completed your skills evaluation, the evaluator will direct you to wash your hands. Although this will not affect your examination results, for the purposes of infection control, you must wash your hands.**

You must successfully complete all five (5) skills to pass the skills evaluation. You will have thirty (30) minutes to demonstrate all five (5) skills.

**RECORDING A MEASUREMENT**

The NNAAP skills evaluation requires every candidate to perform one measurement skill, such as blood pressure, radial pulse, respirations, urine output, or weight. You will be given a special form, called a Recording Sheet for Measurement Skills, to write down, or record, the measurement. For example, if performing the *Measures and Records Blood Pressure* skill, you will write the complete systolic and diastolic pressures of your blood pressure reading in a box labeled Candidate Results.

On the following page is a copy of the recording sheet that will be used during the skills exam. The candidate must record his/her results in the Candidate Results box on this sheet. This sheet will be used to record the results of the following measurement skills:

- Measures and Records Blood Pressure
- Measures and Records Weight of Ambulatory Client
- Measures and Records Urinary Output
- Counts and Records Radial Pulse
- Counts and Records Respirations
Tips for the Skills Evaluation

• You will be expected to perform the skills as you would in a nursing home setting. When water is required, you must use running water. All candidates will be required to perform the Hand Hygiene skill. The evaluator will inform you after you have washed your hands for the first time that you should just tell him or her when you would wash your hands during your performance of the rest of the skills, rather than actually washing them for each skill. For all steps other than hand-washing, you must actually perform the skill in order to receive credit. You may not simply tell the evaluator what you would do for simulating a step. For example, you may not simply tell the evaluator that you would wash the client. You must actually demonstrate washing the client. You may not simply tell the evaluator that you would feed the client. You must actually demonstrate feeding the client.

• After you have introduced yourself to the client for the first time, it is not necessary for you to introduce yourself each time you begin a new skill.

• To receive full credit for a measurement skill, you must accurately make the required measurement and then write that measurement on the Recording Sheet for Measurement Skills. The evaluator will provide the Recording Sheet to you at the test site. A sample of the Recording Sheet is shown on page 24 of this handbook. You are encouraged to become familiar with the Recording Sheet before your scheduled test date.

• You must know how to operate both a standing and a non-digital bathroom scale and must know how to set both types of scales to zero.

• You may not bring any of your own equipment to the test site (i.e. transfer/gait belt).

• It is important for you to place the call signal within the client’s reach whenever you leave the client.

• Where the word "client" appears, it refers to the person receiving care.

EXAM RESULTS

The Nurse Aide Evaluator may not answer questions about your score report. If you have questions about your score report, or the content of the examination, call (888) 723-6773. Results will not be given over the telephone.

To access your score report, please log into your PCM account at https://i7lp.integral7.com/ncna. Score reports are generally available within 24 hours after a testing event is completed for the day.

Written (or English or Spanish Oral) Exam

After you finish the written (or oral) examination, your exam will be scored and you will receive an official score report from the test administrator at the test site. The score report will indicate whether you have passed or failed the written (or oral) examination.

Skills Evaluation

You can view your score report online. Sign into your account, and there will be a link for you to choose to view your results. For questions regarding delayed score reports, please contact (888) 723-6773.

FAILING

If you fail the written (or English or Spanish oral) examination or the skills evaluation, your score report will provide you with information on how to re-take either or both parts of the evaluation. A new examination fee is required each time you re-take any part of the NNAAP Examination. To re-take either or both parts, you must re-register on-line.

Candidates must pass both the written examination and the skills examination within two (2) years from the successful completion date of a state-approved training program or within three (3) attempts, whichever comes first, to be placed on the North Carolina Nurse Aide I Registry. Failure to do so will require Candidates to complete state-approved nurse aide training and competency testing again. In addition, a change in the eligibility route may require Candidates to complete state-approved nurse aide training and competency testing.
HOW TO READ A FAILING SCORE REPORT

If you do not pass the skills evaluation, you will receive a failing score report. The score report will list the five (5) skills that you performed and a score of Satisfactory or Unsatisfactory for each skill. Any skill with an Unsatisfactory result is considered a failed skill. You must receive a Satisfactory result on all five (5) skills to pass the skills evaluation.

Use your failing score report as an aid in studying to re-take the skills evaluation. A failed skill will show the reason for the failure. You may not have performed the steps of a skill correctly, or you may have forgotten a step, especially a Critical Element Step.

The failing score report will list steps that were missed or incorrect—look for numbers printed directly under a skill marked Unsatisfactory. A list of all the skills and the steps needed for each skill can be found in this handbook. Find the skill you failed, and study the steps, especially steps listed as Unsatisfactory on the score report.

In the example on the next page, a candidate received a result of Unsatisfactory on the skill Hand Hygiene. The numbers 1, 5, and 10 printed below the skill refer to steps that were missed or performed incorrectly. To study for re-taking the skills evaluation, this candidate should turn to the Skills Listing in this handbook, look for the Hand Hygiene skill, and review all the steps, especially steps 1, 5, and 10.
