INTRODUCTION

This handbook is designed for candidates seeking nursing assistant certification in Rhode Island. It describes the process of applying for and taking the National Nursing Assistant Assessment Program (NNAAP®) Examination.

The Rhode Island Department of Health has contracted with Credentia, a nationally recognized leading provider of assessment services to regulatory agencies and national associations. Credentia will develop, schedule, administer, score, and report the results of the NNAAP® Examination for the Rhode Island Nursing Assistant Registry.

In order to be certified (licensed) in the state of Rhode Island as a nursing assistant, your nursing assistant training program will be required to complete and submit two applications. The **first application** is the *Application for Licensure As A Nursing Assistant*, which may be obtained from your nursing assistant training program. Your nursing assistant training program must submit a completed *Application for Licensure As A Nursing Assistant* to the Rhode Island Department of Health before you are scheduled to take the NNAAP examination. The **second application**, the *Application for Registration By Examination*, should be submitted to Credentia. Credentia will schedule qualified applicants to take the NNAAP examination. You can submit an Application for Registration By Examination from your CNA365 account. Go to Credentia's Rhode Island Webpage to access your CNA365 account www.credentia.com/test-takers/ri

NATIONAL NURSING ASSISTANT ASSESSMENT PROGRAM (NNAAP®)

The Nursing Home Reform Act, adopted by Congress as part of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), was designed to improve the quality of care in long-term health care facilities and to define training and evaluation standards for nurse aides who work in such facilities. Each state is responsible for following the terms of this federal law.

The National Nurse Aide Assessment Program (NNAAP®) is an examination program designed to determine minimal competency to become a certified nursing assistant in your state. The NNAAP was developed by the National Council of State Boards of Nursing, Inc., (NCSBN) to meet the nursing assistant evaluation requirement of federal and state laws and regulations. Credentia is the authorized administrator of

the NNAAP in your state.

The NNAAP Examination is a measure of nursing assistant-related knowledge, skills, and abilities. The NNAAP Examination is made up of both a Written (or Oral) Examination and a Skills Evaluation. The purpose of the NNAAP Examination is to make sure that you understand and can safely perform the job of an entry-level nursing assistant.

EXAM OVERVIEW

The two parts of the NNAAP Examination include, the Written (or Oral) Examination and the Skills Evaluation. You must pass both the Written (or Oral) Examination and the Skills Evaluation in a twelve (12) month period in order to obtain your nursing assistant certification in Rhode Island.

Nursing assistant applicants shall be given three (3) opportunities to successfully complete both the written and practical components of the nursing assistant examinations. After three (3) unsuccessful attempts to complete the nursing assistant examinations, the nursing assistant shall be required to repeat the nursing assistant training program.

The Written Examination consists of seventy (70) multiple-choice questions written in English. Sample examination questions are provided in this handbook.

An Oral Examination may be taken in place of the Written Examination if you have difficulty reading English. The Oral Examination consists of sixty (60) multiple-choice questions and ten (10) reading comprehension questions. If you want to take the Oral Examination, you must request it when you submit your application.

At the Skills Evaluation you will be asked to perform five (5) randomly selected nursing assistant skills. You will be given thirty (30) minutes to complete the five (5) skills. You will be rated on these skills by a Nursing Assistant Evaluator. You must successfully demonstrate five (5) skills in order to pass the Skills Evaluation. A complete listing of the skills is shown on pages 25 to 39.

See *The Written (or Oral) Exam* and *The Skills Evaluation* for more details about the NNAAP Examination.

REQUIREMENTS FOR LICENSURE AS A NURSING ASSISTANT

In order to be scheduled for examination as a nursing assistant in Rhode Island, your nursing assistant training program must first submit an application for licensure as a nursing assistant to the Rhode Island Department of Health. In addition, an original BCI (criminal background check) from the Rhode Island Attorney General's Office only, dated within four (4) months (2 months for applicants who were licensed as a Nursing Assistant in RI) of the application date, with stamp and seal is required. If you have a positive BCI, a detailed explanation of the charge must be provided. Incomplete applications will be returned.

If your score is less than 17, you may have difficulty reading the Written Examination and should consider taking the Oral Examination in place of the Written Examination.

THE SKILLS EVALUATION

WHAT TO EXPECT

The Skills Evaluation is set up to resemble an actual caregiving situation. The Skills Evaluation area will look similar to your work setting. It will have all the equipment necessary to perform the assigned skills. The Skills Evaluation will be administered by a Nurse Aide Evaluator. Before your skills evaluation begins, the evaluator will show you where equipment is located and answer questions about operating the equipment..

Please arrive 30 minutes early. Test times are approximate. Please plan to spend the day.

WHO WILL ACT AS A CLIENT?

The part of the “client” will be played by a candidate who volunteers to act as a weakened elderly person. While you perform the skills, speak to the candidate volunteer as you would speak to an actual client in a nurse aide work setting. You are encouraged to speak to the candidate volunteer not only because it is part of quality care, but also because it will help you to relax as you perform the skills.

Please note, you may not receive help from anyone during the Skills Evaluation, and the candidate and the client must speak to one another in English so that the evaluator can understand and correctly score the evaluation. If either candidate gives help or receives help during the test, or the client and candidate are communicating in a language other than English, the test will be stopped.

CANDIDATE VOLUNTEER REQUIREMENTS

You will need to act as a candidate volunteer for another candidate’s Skills Evaluation and play the role of a nursing home patient (client). The evaluator will give you verbal instructions that will describe how you should act in performing the role of the client.

CANDIDATE DRESS REQUIREMENTS

You must wear **flat, slip-on, non-skid shoes**, a loose-fitting top with short sleeves that can be rolled up to the shoulder or tank top, and loose fitting pants that can be rolled up. You will be required to put a gown on over your clothing. In no case may candidates remove clothing down to undergarments.

Prior to beginning the exam, you should inform the evaluator of any food or latex allergy or sensitivity to skin soaps or lotion. Any limitations to range of motion must also be communicated to the evaluator prior to the start of the skills examination.

For infection control purposes, you should not come to the test site with open areas/sores on the skin. Candidates with any open areas or sores on their skin should reschedule their skills test to a later date after their skin fully heals.

THE TASKS

The NNAAP Skills List contains all of the skills that you may be asked to demonstrate during the Skills Evaluation. Each skill represents a task that you will be asked to perform in your job and has been broken down into a series of steps.

A step that is highlighted in ***bold type*** is called a ***Critical Element Step***. Critical Element Steps are important steps that must be performed correctly in order for you to pass the skill. If you leave out a Critical Element Step or do not perform a Critical Element Step properly, you will not pass the skill. However, if you perform only the Critical Element Step correctly in a skill, you do not automatically pass that skill. You must also correctly demonstrate enough steps to meet the passing standard (or *cut score*) for each skill.

Before your Skills Evaluation begins, the Nursing Assistant Evaluator will give you an instruction card that will list the five (5) skills selected for you to perform. Hand-washing will always be one of the skills to be performed. The remaining four (4) skills are randomly chosen from the complete set of skills listings on pages 25 to 39 of this handbook. You are strongly encouraged to perform the skills in the order they are listed on the instruction card.

If you make a mistake, say so, and you will be instructed to tell the evaluator which step(s) is to be corrected and then to perform the step(s). You will not have to redo the entire skill, just the steps you wish to correct. There are, however, some exceptions to this rule. If you fail to put on gloves or take them off when it is required to do so and the evaluator reminds you to do so, for infection control purposes, then you will not receive credit for attempting to correct this step. If you wish to correct an order-dependent step (a step stating that an action should be performed **before** or **after** another step) and you fail to say **when** the

corrected step should be performed, you will not receive credit for the correction.

Once you begin a new skill, you may not go back to correct a previous skill. The Nursing Assistant Evaluator will not answer questions **during** the Skills Evaluation and will not tell you whether you performed a skill correctly. You may not receive help from anyone during the Skills Evaluation. If you do have any questions, please ask them before the Skills Evaluation begins.

At least one (1) of the four (4) randomly selected skills will include a measurement skill (see the section below, *Recording A Measurement*, for more information regarding measurement skills).

You will be asked to decontaminate your hands (with sanitizer) before proceeding from skills performed on a live client to skills that are not. This is for infection control purposes and will not affect the results of your evaluation.

When you have completed your skills evaluation, the evaluator will direct you to wash your hands. Although this will not affect your examination results, for the purposes of infection control, you must wash your hands.

You must successfully complete five (5) out of the five (5) skills in the skill form to pass the Skills Evaluation. You will have thirty (30) minutes to demonstrate all five (5) skills.

RECORDING A MEASUREMENT

The NNAAP Skills Evaluation requires every candidate to perform at least one measurement skill, such as blood pressure, radial pulse, respirations, urine output, or weight. You will be given a special form, called a Recording Sheet for Measurement Skills, to write down, or *record*, the measurement. For example, if performing the *Measures and Records Blood Pressure* skill, you will write the complete systolic and diastolic pressures of your blood pressure reading in a box labeled Candidate Results.

On the following page is a copy of the recording sheet that will be used during the skills exam. The candidate must record his/her results in the Candidate Results box on this sheet. This sheet will be used to record the results of the following measurement skills:

- Measures and Records Blood Pressure
- Measures and Records Weight of Ambulatory Client
- Measures and Records Urinary Output

TIPS FOR THE SKILLS EVALUATION

- You will be expected to perform the skills as you would in a nursing home setting. When water is required, you must use running water. All candidates will be required to perform the *Hand Hygiene* skill. The evaluator will inform you after you have washed your hands for the first time that you should just tell him or her when you would wash your hands during your performance of the rest of the skills, rather than actually washing them for each skill. For all steps other than hand-washing, you must actually perform the skill in order to receive credit. You may not simply tell the evaluator what you would do for simulating a step. For example, you may not simply tell the evaluator that you would wash the client. You must actually demonstrate washing the client. You may not simply tell the evaluator that you would feed the client. You must actually demonstrate feeding the client.
- After you have introduced yourself to the client for the first time, it is not necessary for you to introduce yourself each time you begin a new skill.
- To receive full credit for a measurement skill, you must accurately make the required measurement and then write that measurement on the *Recording Sheet for Measurement Skills*. The evaluator will provide the Recording Sheet to you at the test site. A sample of the Recording Sheet is shown on page 24 of this handbook. You are encouraged to become familiar with the Recording Sheet before your scheduled test date.
- You must know how to operate both a standing and a non-digital bathroom scale and must know how to set both types of scales to zero.
- You **may not bring** any of your own equipment to the test site (i.e. transfer/gait belt).
- It is important for you to place the call signal within the client's reach whenever you leave the client.
- *Where the word “**client**” appears, it refers to the person receiving care.*

SCORE REPORTING

EXAM RESULTS

You will receive a notification email from CNA365 when a new exam score has been posted to your online account. To access your score report, please login to your CNA365 account by clicking the “CNA365 Login” button on the top of the Rhode Island nurse aide website page at www.credentia.com/test-takers/ri Score reports are generally available within a few hours after a testing event is completed for the day. If it has been more than 24 hours and you are unable to view your score report in CNA365, please contact customer service at 800-274-2900.

SKILLS EVALUATION

The Nurse Aide Evaluator will also fax your Skills Evaluation results for scoring. After the Nurse Aide Evaluator evaluates your performance, he or she will fax the Skills Evaluation answer sheet for scoring. The Score Report will indicate whether you have passed or failed the Skills Evaluation.

Occasionally, due to infrequent technical difficulties, Score Reports may not be available on the day of testing. If this happens your answer sheet will be mailed overnight to Credentia for handscoring. Your Score Report will then be available to you (via your CNA365 account) within 5-7 business days after testing. For questions regarding delayed Score Reports, please call (800) 274-2900.

FAILING

If you fail the Written (or Oral) Examination or the Skills Evaluation, your Score Report will provide you with information on how to re-take either or both parts. A new examination fee is required each time you re-take any part of the NNAAP Examination. If you fail the Written (or Oral) Examination or the Skills Evaluation, your Score Report will provide you with information on re-taking either or both parts. A new examination fee is required each time you re-take any part of the NNAAP Examination. For more information concerning re-take fees, refer to the Exam Fees section in this handbook.

State and federal regulations allow you three (3) attempts to pass both the Skills Evaluation and the Written (or Oral) Examination. If you should fail either part or both parts three (3) times, you will be required to success-

fully complete a state-approved nursing assistant training program and re-take both parts. You must take and pass both the Written (or Oral) Examination and the Skills Evaluation within a twelve (12) month period in order to be placed on the Rhode Island Nursing Assistant Registry.

HOW TO READ A FAILING SCORE REPORT

If you do not pass the Skills Evaluation, you will receive a Failing Score Report. The score report will list the 5 skills that you performed and a score of *Satisfactory* or *Unsatisfactory* for each skill. Any skill with an *Unsatisfactory* result is considered a failed skill. You must receive a *Satisfactory* result on all 5 skills in order to pass the Skills Evaluation.

Use your failing Score Report as an aid in studying to re-take the Skills Evaluation. A failed skill will show the reason for the failure. You may not have performed the steps of a skill correctly, or you may have forgotten a step, especially a Critical Element Step.

The failing Score Report will list steps that were missed or incorrect—look for numbers printed directly under a skill marked *Unsatisfactory*. A list of all the skills and the steps needed for each skill can be found in this handbook. Find the skill you failed, and study the steps, especially steps listed as *Unsatisfactory* on the score report.

In the following example, a candidate received a result of *Unsatisfactory* on the skill *Hand Hygiene*. The numbers 1, 5, and 10 printed below the skill refer to steps that were missed or performed incorrectly. To study for re-taking the Skills Evaluation, this candidate should turn to the Skills Listing in this handbook, look for the Hand Hygiene skill, and review all the steps, especially steps 1, 5, and 10.

You are eligible for reciprocity if you are a nursing assistant in a state other than Rhode Island in accordance with the competency evaluation requirements of OBRA '87, and if you are currently listed on the other state's registry as active and in good standing.

Contact the Rhode Island Department of Health for additional information about applying for placement onto the Rhode Island Nursing Assistant Registry via endorsement.
